

Everything Your Lab Needs to Buy, Track, and Maintain Equipment

From complex CapEx to contract renewals, **MyAmici** gives you the tools and expertise to simplify equipment procurement and management, keeping every asset visible, compliant, and performing at its best.

The screenshot shows a web-based application interface for managing assets. The main window displays a table of service contracts for an asset with reference number 00001. The table includes columns for Contract Reference, Asset Management Module, Start Date, End Date, Expiry Action, and User. One contract is marked as 'Don't Renew' and another as 'New'. A sidebar on the right shows navigation links for 'Assets', 'Service Contracts', 'Maintenance Schedule', and 'Asset Visit Cost Report'.

Contract Reference	Asset Management Module	Start Date	End Date	Expiry Action	User
FlexCHOICE Coverage Y1/3		17-Sep-2024	16-Sep-2025	Don't Renew	John Smith
Multi Instrument Plan (MiP5)		26-Sep-2025	25-Sep-2026	New	Tom Jones
FlexCHOICE Coverage for BioAccords Y2/2		04-Jan-2025	28-Sep-2026	New	John Smith

Asset Management & Equipment Purchasing combines MyAmici's platform and procurement service to help manage every stage of equipment ownership, from sourcing and installation to servicing and replacement. Labs gain a single source of truth for all asset data, spend, and maintenance activity.

Key Features

Smarter Equipment Procurement

Access a dedicated team to support complex purchases, from clarifying equipment requirements to supplier negotiation, for faster, smarter decision-making.

Centralized Asset Management System

Track every asset in one place, including ownership, lifecycle cost, usage, and maintenance history. No more scattered spreadsheets.

Proactive Maintenance Tracking

Record warranty and service details, capture calibration/test dates, and surface upcoming expiries for critical equipment, so labs act before issues disrupt research.

Lifecycle Visibility & Reporting

Monitor performance, downtime, and service spend with data-driven insights that help you plan replacements and budget more effectively.

Scalable Platform & Support

As your lab grows, MyAmici's platform and people scale with you — managing multiple sites, teams, and operational models with ease.

How It Works

- 1. Specification & Sourcing:** We facilitate the creation of detailed technical specifications — from individual items to full lab builds or new GMP facilities and compare options for best value.
- 2. Purchase:** Quotes, approvals, and POs flow through one connected procurement process, fully aligned with your CapEx controls.
- 3. Delivery & Installation:** Our team manages logistics, confirms timelines, and ensures smooth installation. Once delivered, assets are logged immediately, capturing warranties and service details.
- 4. Tracking & Maintenance:** Your entire asset estate is visible in one place. View lifecycle data, service records, risk areas, and upcoming expiries.
- 5. Renewal & Replacement:** Receive proactive alerts and expert support for service renewals, upgrades, and replacements before issues impact research.

The Value

- ✓ Simplify complex equipment purchasing and maintenance oversight
- ✓ Eliminate spreadsheet chaos with a centralized asset view
- ✓ Prevent downtime and keep critical equipment in optimal condition
- ✓ Gain full visibility of ownership, costs, and performance
- ✓ Build investor confidence with transparent, auditable asset data
- ✓ Ensure you source the right equipment at the best price and specification

Why MyAmici?

MyAmici was built for labs navigating rapid growth, rising complexity, and the operational pressure of keeping science running smoothly.

We combine **deep scientific procurement expertise** with a **connected, biotech-specific platform** to help labs buy better, track smarter, and maintain equipment reliably.

We give you:

- **Smarter procurement support** for major CapEx projects, expansions, and specialist equipment
- **A unified asset register** spanning equipment, warranties, service records, and maintenance logs
- **Early-warning systems** for expiries, service renewals, and compliance-critical checks
- **Concierge-level support** with monthly reviews and hands-on supplier management
- **A single platform** that integrates purchasing, asset management, and service oversight
- **More value for every pound spent**, with expert negotiation and lifecycle savings baked in

The Result

A proactive, data-driven equipment strategy that prevents downtime, supports scientific productivity, and keeps your entire equipment estate compliant and investment-ready.
